Profile Summary

Motivated B.Tech IT student (2nd Year, CGPA 8.79) with hands-on experience building full-stack, database-driven web applications. Proficient in Java (OOP), Python, HTML, CSS, and MySQL, with a solid understanding of the software development lifecycle, debugging, testing, and object-oriented programming. Familiar with Agile methodologies, CI/CD concepts, Git version control, and collaborative software development practices. Passionate about leveraging cloud technologies, big data concepts, and emerging technologies to deliver innovative, end-to-end software solutions. Actively engaged in technical communities, hackathons, and social impact initiatives.

Education

B.Tech – Information Technology Sri Sairam Engineering College 2025–Present CGPA:8.79(Till3rdSem)	Senior Secondary (Class XII) – CBSE Gokilambal International School 2024 91.2%	Secondary (Class X) – CBSE Gokilambal International School 2022 84%
--	---	--

Technical Skills

Languages: Java, Python (Intermediate), C Web Technologies: HTML, CSS Database: MySQL (Relational Databases) Core Concepts: OOP, Data Structures & Algorithms, SDLC, Debugging	Tools: Git, GitHub, MySQL Workbench, VS Code Methodologies: Agile, CI/CD (Basic), Software Testing, Business Analysis Exposure: Cloud Computing, Big Data Concepts, Application Resiliency Soft Skills: Leadership, Communication, Teamwork, Problem Solving, Time Management
---	--

Projects

EduLink+ – Smart Education Web Platform <i>Technologies: HTML, CSS, Java, MySQL</i> - Developed a full-stack, database-driven education platform connecting students, institutions, and learning resources, following the end-to-end software development lifecycle. - Implemented relational database features in MySQL for notifications, user authentication, and centralized information management, improving system transparency and data retrieval efficiency. - Built collaborative modules for user interaction, resource sharing, and role-based access, applying object-oriented programming principles in Java. - Conducted rigorous debugging, functional testing, and performance optimization, improving overall application reliability and user experience.	
Click2Ration – Digital Ration Management System <i>Technologies: Web Technologies, MySQL</i> - Designed and developed a digital ration distribution system to improve transparency, efficiency, and accessibility for end users, aligned with social good objectives. - Implemented secure user authentication, ration tracking workflows, and centralized MySQL database management with structured data processing and inventory control. - Developed features for real-time inventory tracking, data retrieval, and reporting, applying software engineering best practices to a real-world problem. - Applied Agile-aligned development practices — iterative testing, debugging, and system improvements — to enhance reliability and application resiliency.	

Certifications

NPTEL – Programming in Java IIT Madras Score: 92% Gold Medal	NPTEL – The Joy of Computing Using Python IIT Madras Score: 86% Silver Medal
---	---

Leadership & Activities

- Communicator (MAGIC Member), IEEE Reliability Society – Led technical communication initiatives, coordinated cross-functional teams, and contributed to collaborative knowledge-sharing aligned with agile team practices.
- Campus Ambassador – AICSSYC, WYNTRIX (ASHES 1.0), and Zyra Academy – Coordinated student outreach, technical events, and engagement drives, strengthening interpersonal communication and organizational skills.
- NSS & UBA Volunteer – Actively involved in community service and Force-for-Good style social impact initiatives, developing solutions and awareness programs for underserved communities.
- Active participant in hackathons and technical events, with a passion for building innovative, end-to-end technology solutions under time-constrained, collaborative environments.
